DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group I. (claims 1 to 12) in Paper No. December 29, 2003 (Response to Restriction Requirement) is acknowledged.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification (including the drawings).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 to 12 are rejected as being vague and indefinite because independent claim 1 is directed to a method for anodizing "a component," but the last step in the method states that "the annular cylindrical surface" is anodized. Claim 1 does not clearly state the manner in which the entire "component" is anodized during the claimed method, and claim 1 does not provide any basis for a step involving the anodization of only the annular cylindrical surface. The Examiner believes that the claim language drifts from anodization of "a component" to the more specific anodization of "the annular cylindrical surface."
